INTRODUCTION

◦ INTRODUCTION

MCM Building Contracting was established in Dubai in the year of 2016. It has risen in its short years of existence to be one of the most reputable and quality-focused construction companies in Dubai. It brings together a large group of seasoned engineers with vast experience in operating in Dubai, specializing in very high-end luxury villas and small-rise buildings.

“MCM provides a range of in-house services aimed at controlling quality by its dedicated team of craftsman and professionals committed to providing the highest level of quality in construction and finishing. The company specializes in customized services for both luxury residential homes and low-rise apartment buildings.”

MCM's leadership is always committed to obtaining the newest and most sophisticated methods of construction, to always keep its projects up-to-date and a step ahead of its time.

We specialize in high-end luxury villas and low-rise building complexes. Our entire construction team are in-house and are very discreet about the confidentiality of each project's particularities.

OUR FOUNDER'S COMMITMENT:

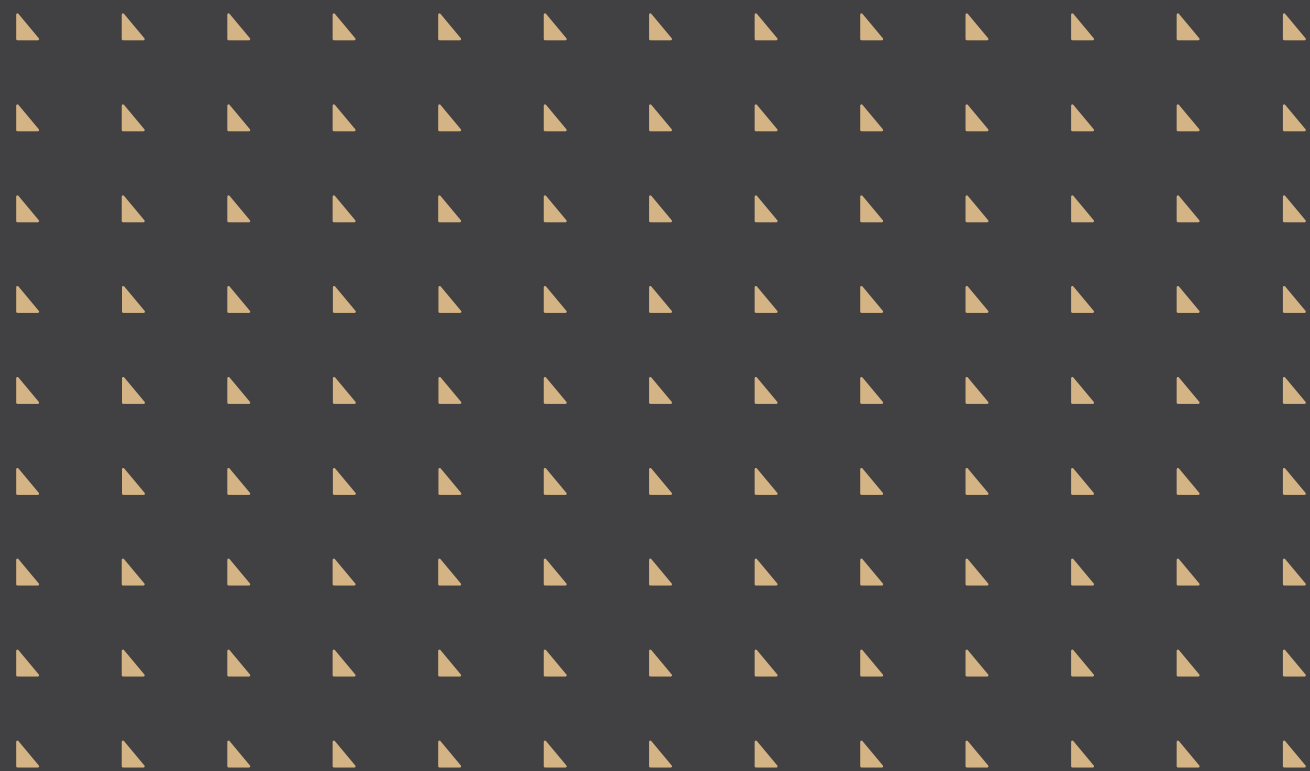

The founders of the company play a crucial role in managing the projects personally to reach excellent results for every project, big or small. They have built their reputation by being fully committed to all projects, regardless of size or value. **Discreetness** and **delivery** are embedded in our core values. **Our Client's needs are put above all.**

The credibility and reputation which have been fostered and strengthened by its clients pushed the company forward during its march to excellence and steady growth, which has led it to occupy an outstanding position among its peers.

“ MCM Building Contracting and its staff have a vast experience in executing large and medium-sized projects on a turnkey basis.”

MISSION VISION VALUES

MISSION & VISION

MISSION STATEMENT

- To take every project with the same level of enthusiasm and care required.
- To always be timely, and transparent with our clients and consultant partners.
- To maintain the confidentiality of every project, especially when it comes to people's private homes.

VISION STATEMENT

MCM's name should echo credibility, reliability, and confidentiality. Having superb structures goes without saying.

VALUES

Our values reflect our focus on **customer satisfaction** through honesty, transparency, and commitment. MCM believes in making a difference with all its business partners, clients, and consultants. MCM advocates value for money, quality, and the service involved in construction.

The MCM Building Contracting Values:

1

Honesty and
transparency

2

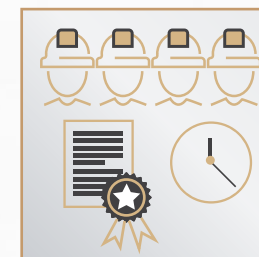

Listening to and
satisfying all
parties involved
in construction

3

Adhering to best
practices and top-
notch engineering
quality at site

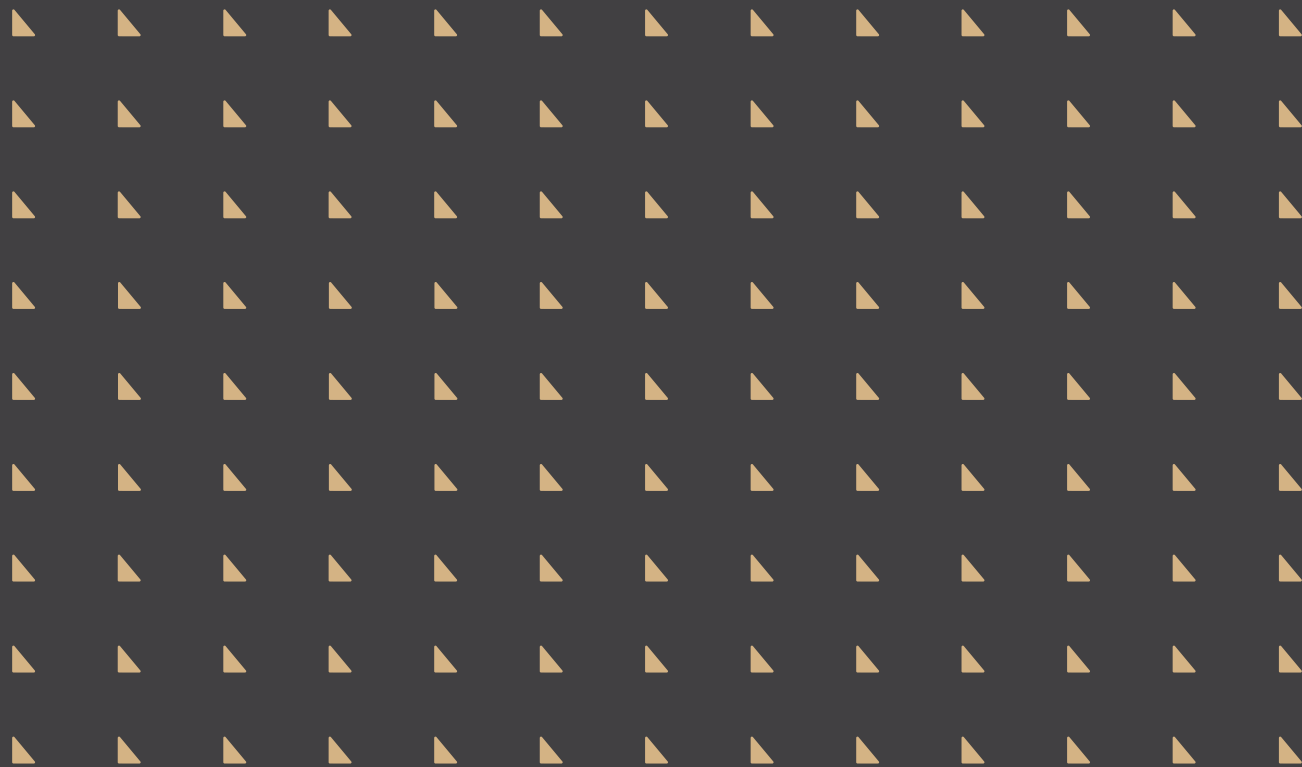

4

Quality control
by having all
necessary teams
in-house

OUR PROMISE

Seeking to build on past experiences, MCM Building Contracting formed the company intending to build beautiful landmarks across the country, to see our work contributing to the aesthetics of our country.

MCM Building Contracting's main strength is its people and their skills, and that is why our team offers quality-built projects with sustainability in mind and always on time.

Our growth over the years is due to **the ability to successfully execute and complete a variety of projects under the management and supervision of:**

- Experienced Administrators,
- Project Manager,
- Engineers,
- Skilled Labourers

Supported by a robust:

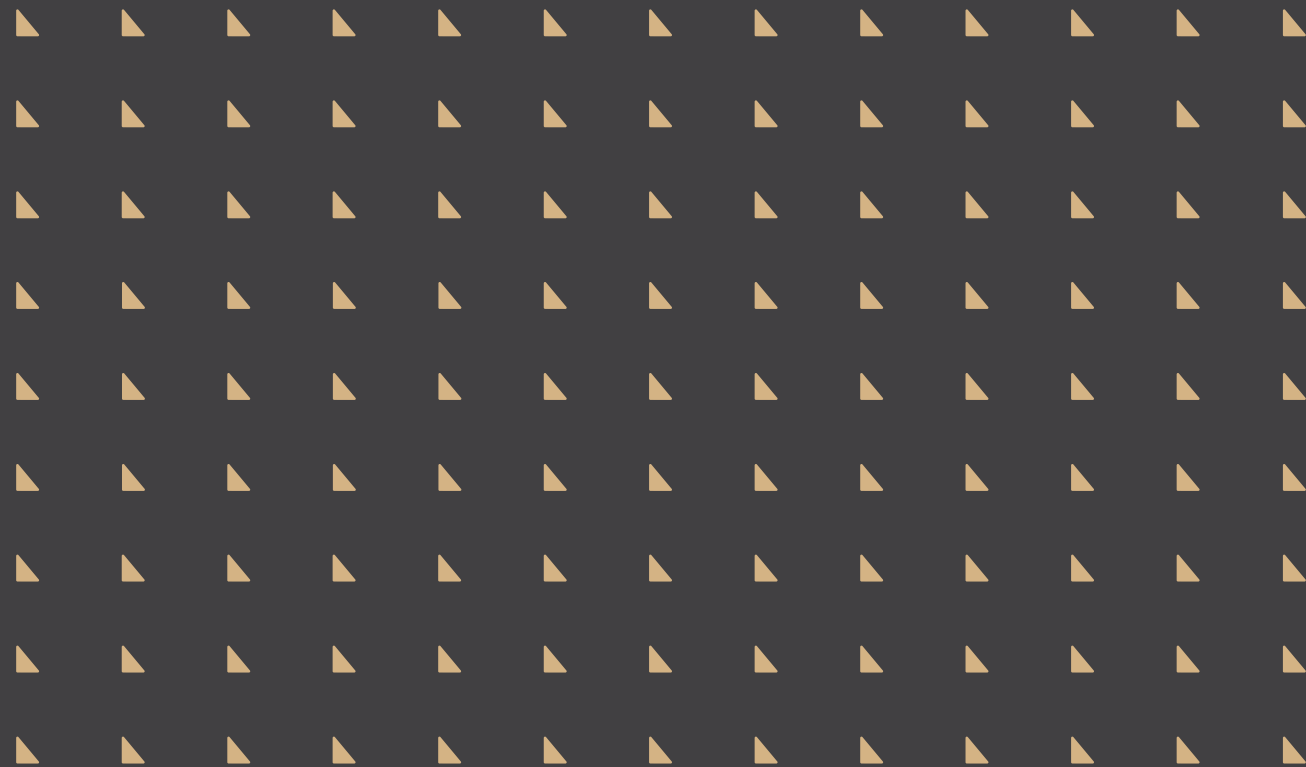

- Health and Safety Policy
- Safe Transport System
- State of the Art Machinery
- Tools and Equipment

OUR PROMISE

SERVICES AT A GLANCE

SERVICES AT A GLANCE

MCM Building Contracting undertakes diversified turnkey construction projects with in-house capabilities for specialized jobs in the fields of:

1.

**Civil Engineering
Works**

2.

Electro-Mechanical Engineering

OUR BUILDING AND CONSTRUCTION SPECIALTIES:

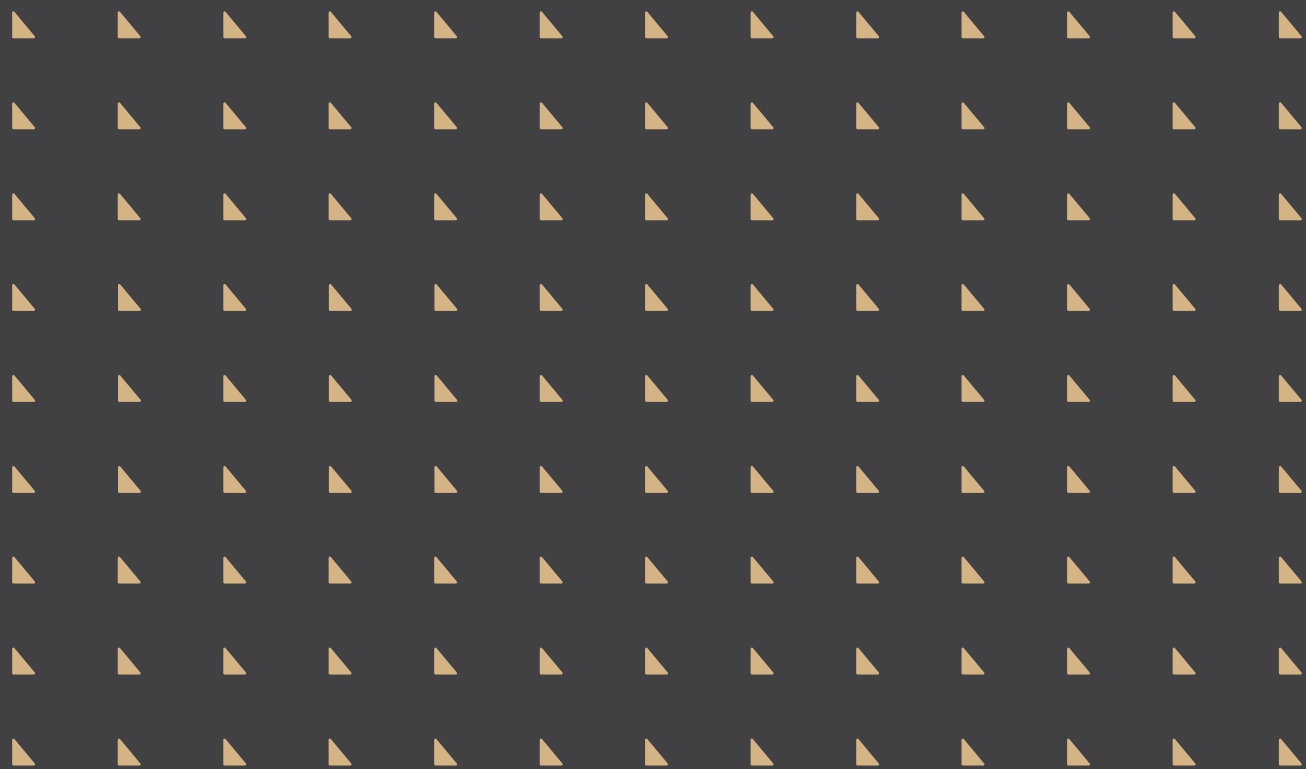

- High-end luxury villas
- Renovation and restoration of old villas and low-rise buildings
- Construction of low-rise buildings

MCM Building Contracting specializes in **conceptualizing, designing, planning, implementation and execution** of diverse projects in Electromechanical Projects including **Power Generation, Water and Sewerage Treatment, Chilled Water Systems, and extra low voltage systems.**

MCM Building Contracting has a large inventory of specialized construction machinery and equipment for carrying out all types of Civil Engineering, and Electro-Mechanical Engineering works.

CONTRACTING SPECIALISATIONS

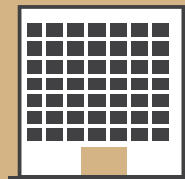

CONTRACTING SPECIALISATIONS

1. RESIDENTIAL

2. COMMERCIAL

5. ELECTRO-MECHANICAL & PLUMBING WORKS

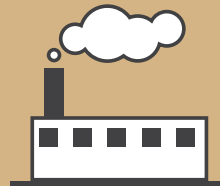

CONTRACTING
ICONS

3. GOVERNMENT PROJECTS

4. INDUSTRIAL PROJECTS

1. RESIDENTIAL

MCM Building Contracting not only builds residential properties or complexes but homes are designed around the mantra of **“Quality of space over quantity of space”** and include unique central ‘features’ like **rooftop terraces, master bedroom retreats, internal courtyards, Alfresco’s** and more.

What’s more important is our designs are executed to be adaptable to design changes and cost-effectively.

We build villas, townhouses, residential complexes and residential buildings **(Up to 12 floors)** with a turnkey approach.

“MCM’s project completion” is also one of our specialities, assuring clients of consistently high standards within record time frames. Our highly effective management, accurate planning and resource deployment are key in making these projects possible. We have employed a full team of tradesmen, skilled workmen and well-experienced engineers and superintendents and maintain a full range of heavy construction equipment in our areas of operation.

Such resources enable us to quickly mobilize into any area in the region and meet the varying requirements of the schedules our projects. Our advantage lies in our ability to bring solutions to our client’s requirements in all phases of project planning and execution.

2. COMMERCIAL

We are a company who build sustainable workplaces. We design, construct and commercial fit-out buildings, including offices. From architectural designs to office buildings (Up to 12 floors), to extensive refurbishments and new fit-outs of existing commercial buildings. Your business or retail space is our workplace.

4. GOVERNMENT PROJECTS

Our company prides itself in being part of the UAE's government and social infrastructure, and this is why we deliver facilities that shape our nation's communities and growth.

5. INDUSTRIAL PROJECTS

MCM Building Contracting builds Industrial structures for temporary, semi-permanent and permanent use. MCM Building Contracting is recognized as one of the most respected and client-focused construction companies in the emirate; MCM Building Contracting prides itself in building industrial projects with a business focus in growth and versatility.

MCM Building Contracting provides you with the most precise setup for almost any kind of industrial space to suit any venture.

This is a specialized service that offers you end-to-end solutions for design, consult, liaison, legal sanctions, construction, engineering, procurement, heating, ventilating and air-conditioning necessary for industrial buildings, administrative buildings, residential buildings, commercial projects, infrastructural facilities, warehousing and various other facility needs.

6. ELECTROMECHANICAL & PLUMBING WORKS

MCM provides service to all types of residential and commercial's electromechanical, plumbing and sanitary needs. Our service management team is screened and experienced to the highest industry standards. MCM Building Contracting provides a well-qualified team of Electricians, AC Engineers and Technicians and plumbers and plumbing technicians who are capable of conceptualizing, designing, planning, implementation and execution of diverse projects in Electromechanical Projects including Power Generation, Water and Sewerage Treatment, Chilled Water Systems, and extra low voltage systems.

From design, planning and execution, we complete electrical and mechanical installations including:

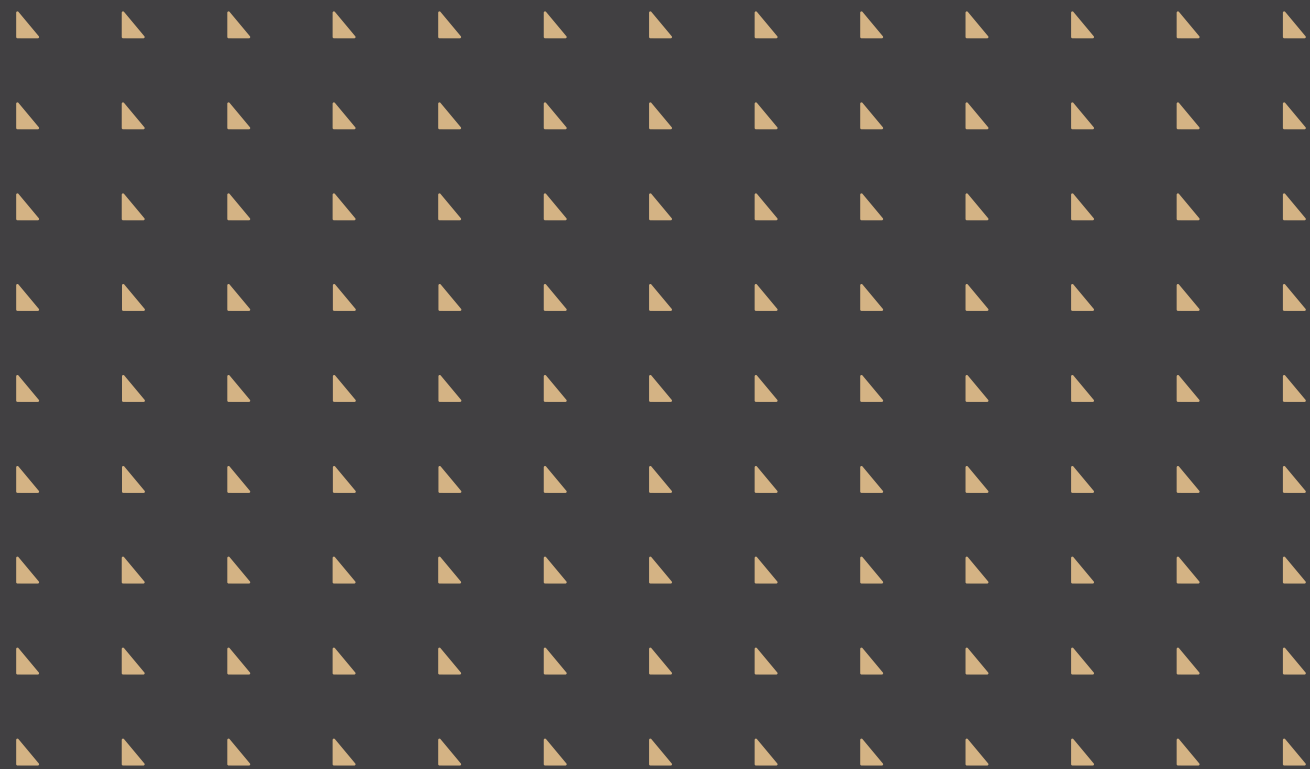

- (a) Power plants
- (b) Generation and distribution networks
- (c) Industrial utilities
- (d) HVAC works
- (e) Cold Stores
- (f) Sanitary installations
- (g) Compressed Air and LPG Systems
- (h) Electrical Installations
- (i) Fire Alarms
- (j) Fire Fighting Systems
- (k) Extra Low Voltage Systems
- (l) Low Voltage Systems including BMS, MATV, CCTV, Telephone, Sound and Security Systems

“As a premier building and construction contractor, we offer comprehensive and cost-effective solutions guaranteed to exceed your expectations and take care of all your electrical, plumbing and sanitary needs.”

HEALTH & SAFETY POLICY

Our commitment to health and safety is an integral part of our approach to doing business. As a company policy, “responsible and committed” provides the platform to ensure all employees and stakeholders are aligned to health and safety is a core value, and that they are engaged in, and empowered by our Safety Policy.

Our positive safety culture is supported by a Just Culture framework that secures the participation and engagement of our workforce, ensures expectations and accountabilities are clearly defined, and that all our stakeholders are treated fairly and equitably.

MCM Building Contracting fosters **positive safety behaviours, worker engagement, risk awareness, transparency** and **accountability**.

The company is committed to:

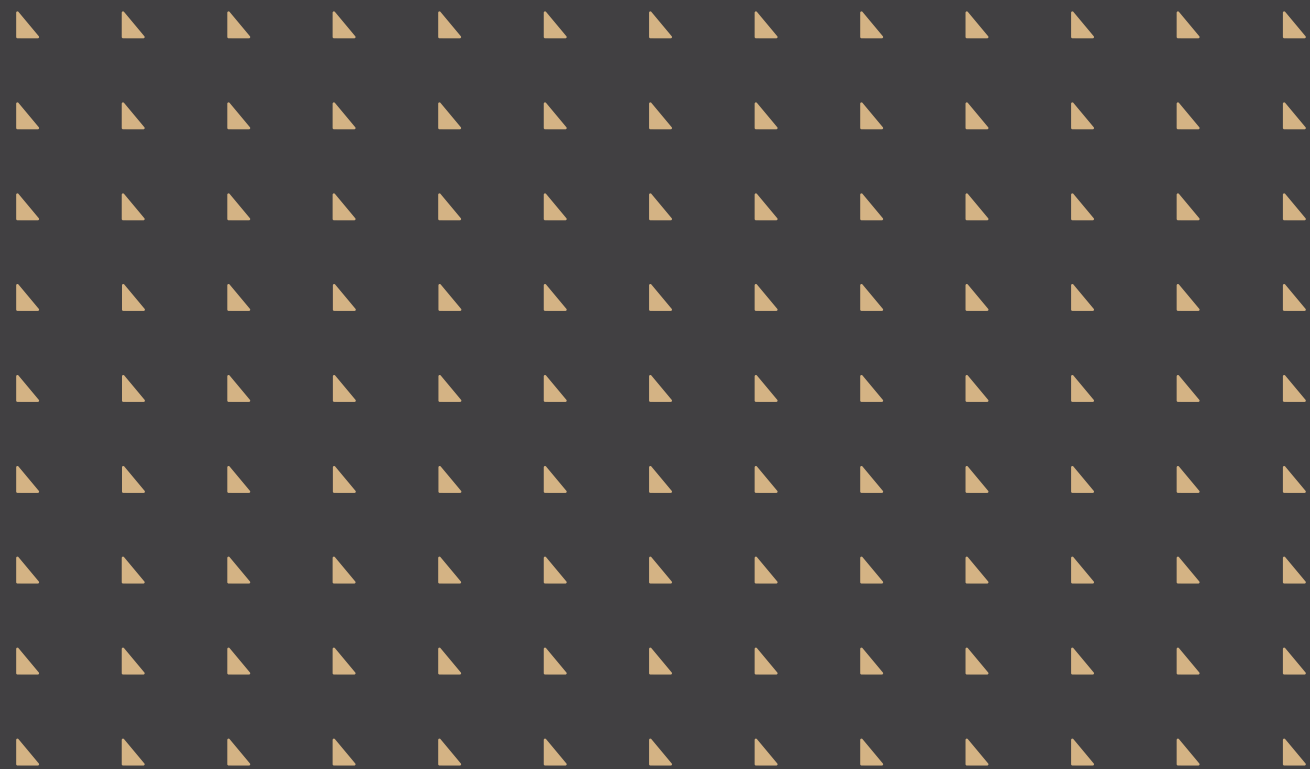

1. **Reduce the number of injuries**, occupational health related incident and commit to prevention of injury and ill health.
2. We provide **Medical Insurance** and CAR to all employees
3. Promote a culture amongst all employees to share HSE commitment and fully involved in its Implementation
4. Construct and operate our facilities in a safe, secure, efficient and environmentally responsible way.
5. Personal accountability to continuously improve our HSE performance through tracking against goals and objectives.
6. Work with our business partners to actively promote and enforce compliance with this policy.
7. Promote open communication and learning with all stakeholders and sharing of HSE knowledge.

HEALTH & SAFETY POLICY

“We conduct monthly Covid19- tests for our engineers, project Managers and office staff.”

OUR APPROACH

OUR APPROACH

DETAILED & INNOVATIVE PLANNING

The foundations for our successful approach to doing business are **comprehensive and detailed planning, innovative use of new technology**, strict adherence to health and safety procedures, a strong commitment to quality assurance, effective communication and robust reporting systems.

GROWTH & STABILITY

Our approach has enabled the business to continue to grow, while **completing a wide range of complex and successful projects** in Dubai.

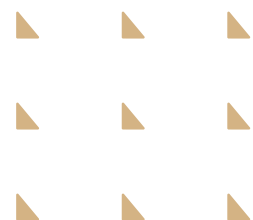

EXCELLENT PROJECT MANAGEMENT

The team begins each project with a detailed project plan, allowing for easy and effective long-term project management. **Projects are monitored against the plan on a daily or weekly basis, depending on individual client needs and the project's complexity.** Each reporting process is tailored to the client.

On-site management of various subcontractors is a real strength of our company, adopting a collaborative, supportive approach to ensure all those involved are informed, prepared and sufficiently resourced to complete the project to schedule.

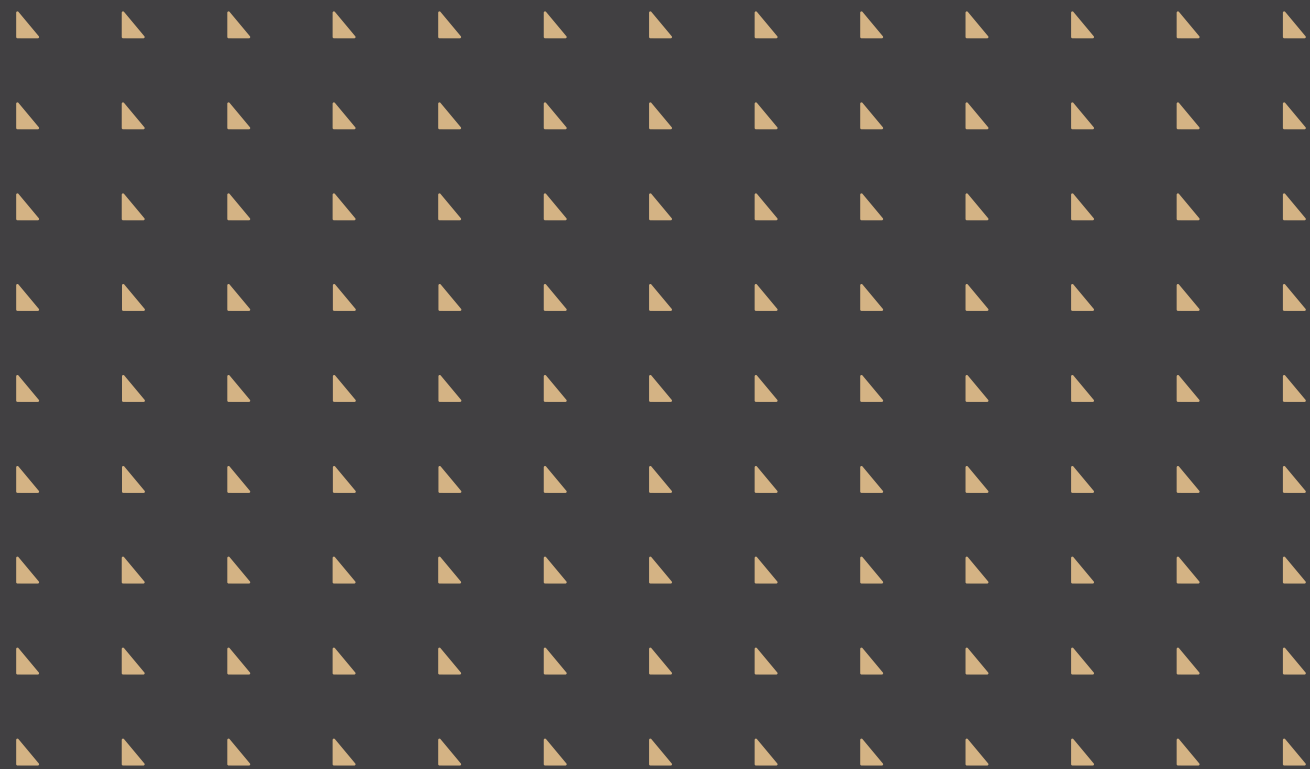

PRE-HANDOVER AND SNAGGING PHASE

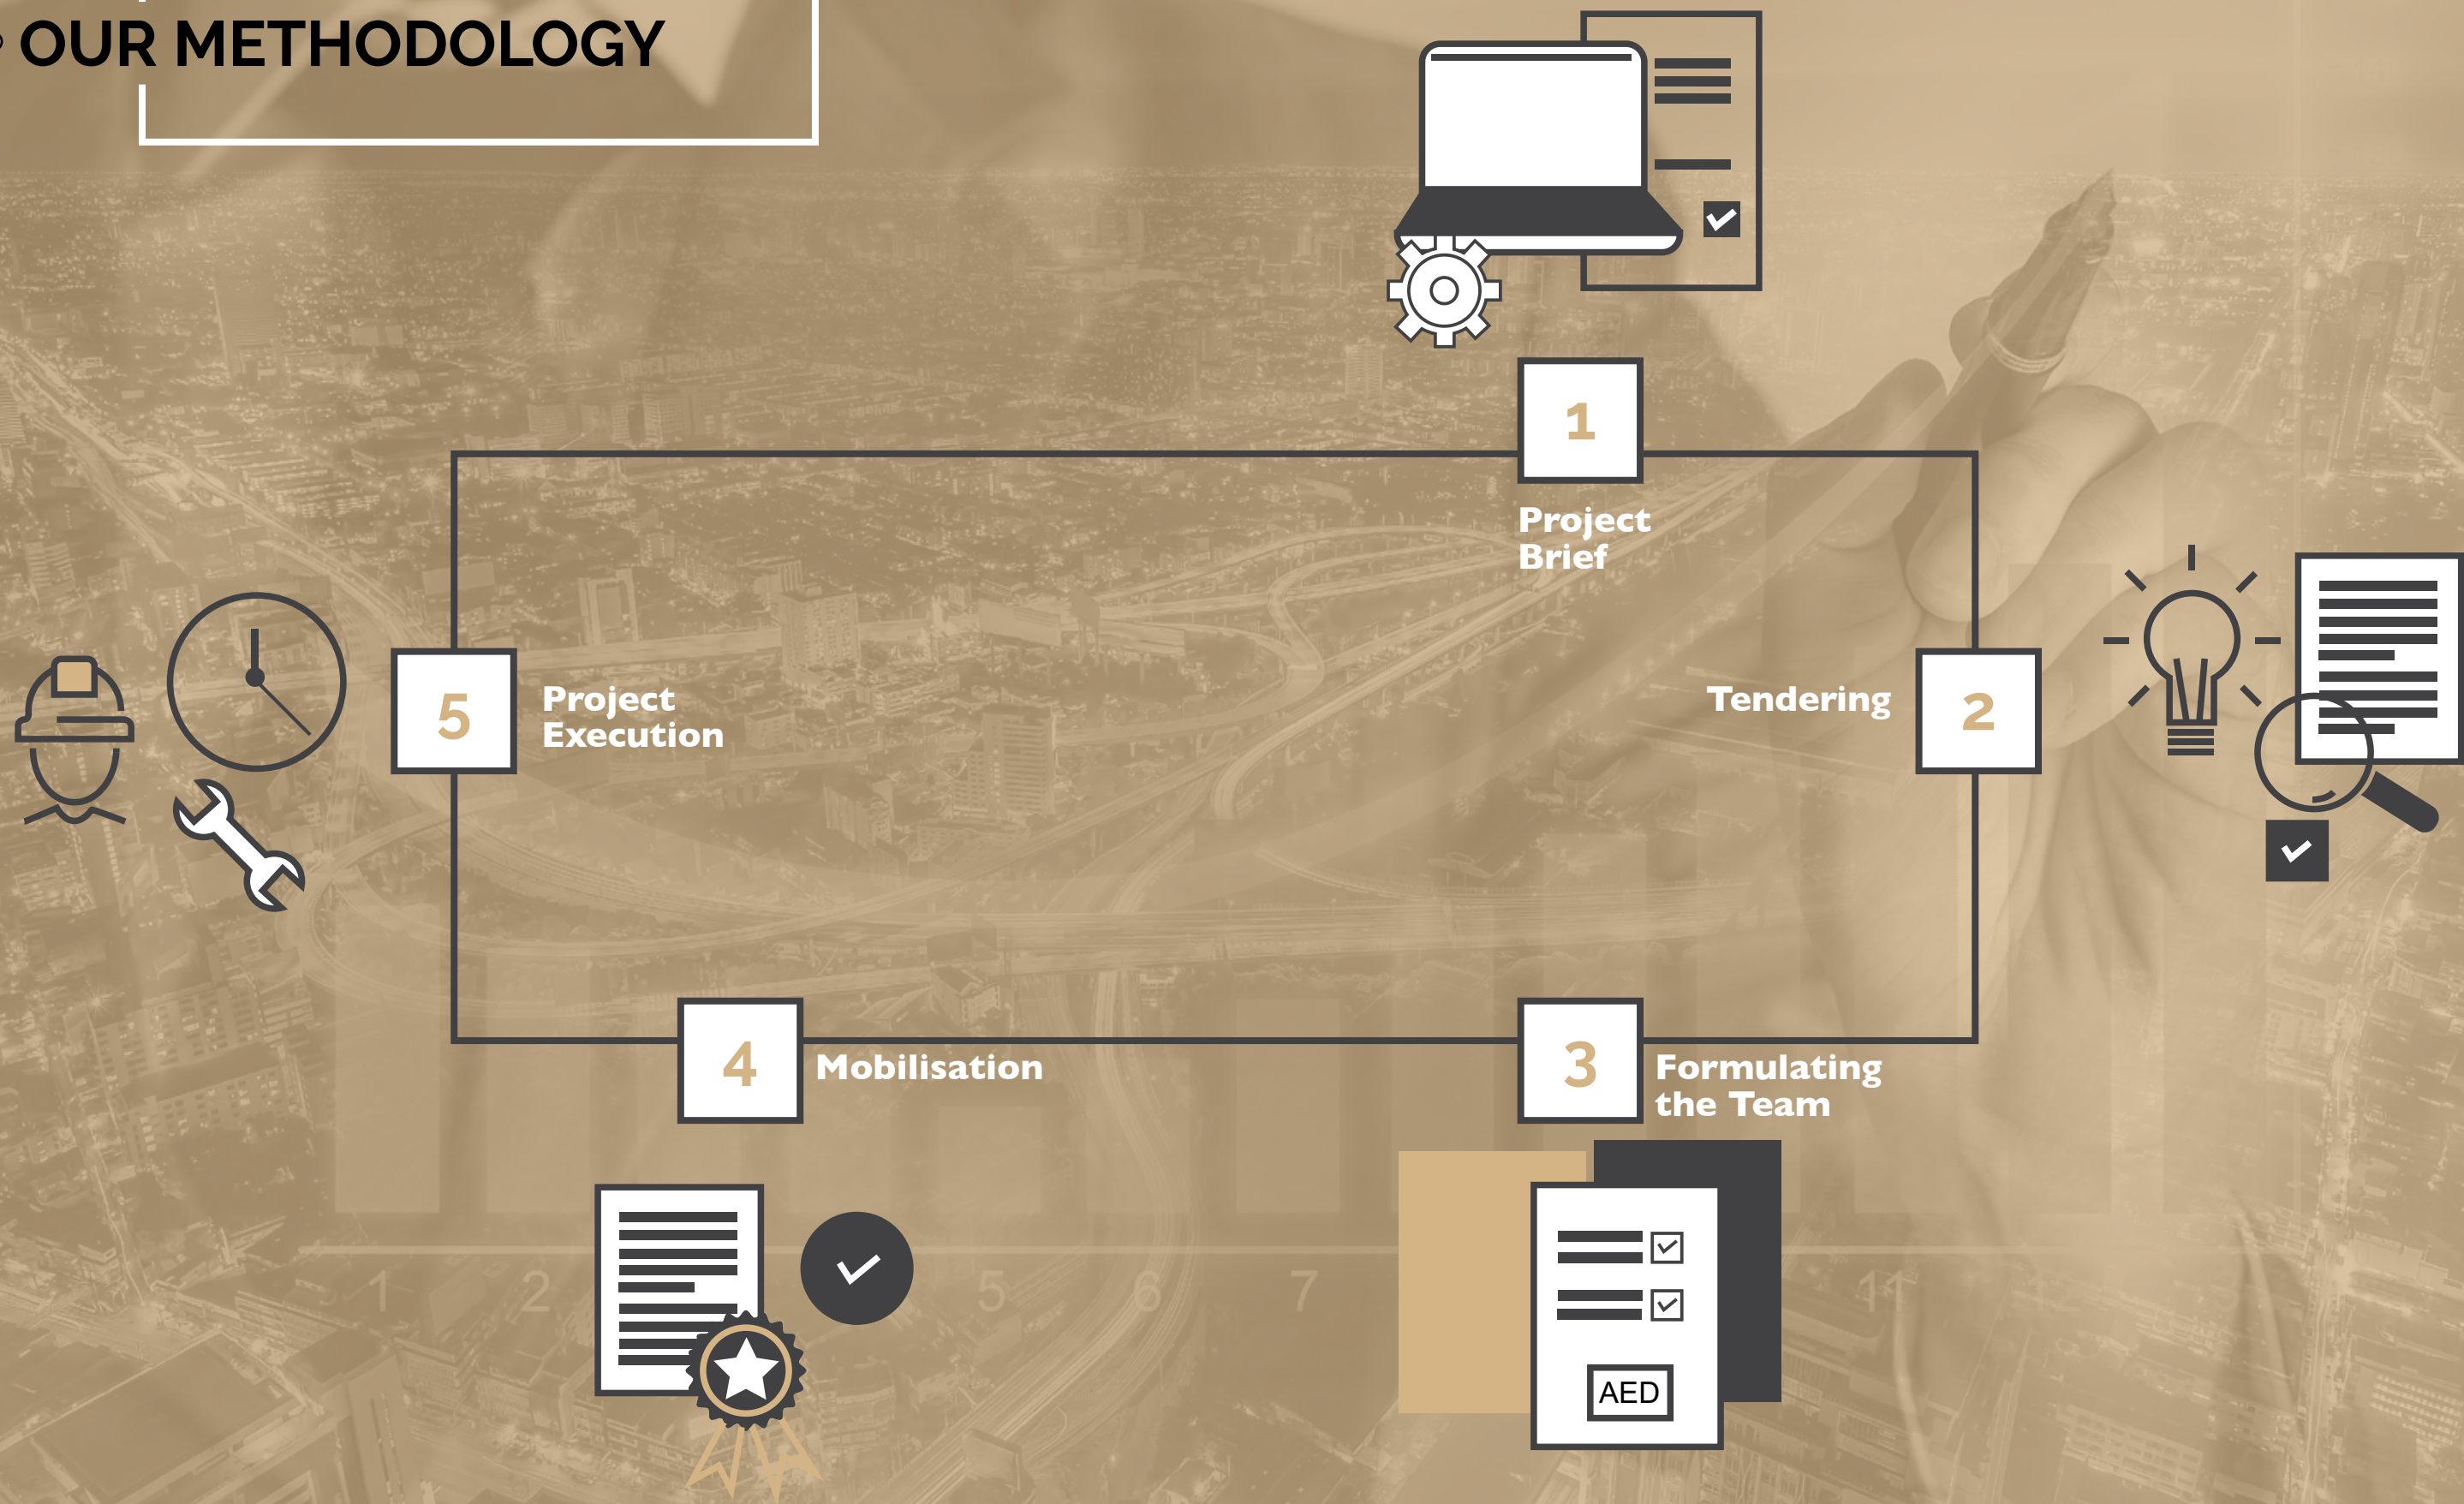

Before the client and consultant does the inspections for the entire villa for the snag phase. Internal snags are done to make sure that the finishing is impeccable. Our company has developed an extensive range of procedures and policies. We **continually review and improve our systems to ensure we maintain an impeccable reputation for high-quality workmanship,** and that we continue to deliver projects, whether simple or complex, on time and adhering to the client's confidentiality.

OUR METHODOLOGY

OUR METHODOLOGY

1 Project Brief

- We meet the client and discuss the vision, needs and scope of the residential, commercial or retail project.
- Assess the client brief and determine a timeframe for execution.
- Determine costing and budget.

2 Tendering

- Meeting client expectations
Creating baseline programs for execution
- Preparing the cashflow
Finally submitting the full tender package

3 Formulating the Team

- Appointing a Project Manager, Project Engineer and Planner. This team is set based on the projects requirements and client's comfort
- Sourcing of the materials to be used for the project and creating mood boards for the entire project pre execution
- Seeking client's approval

4 Mobilisation

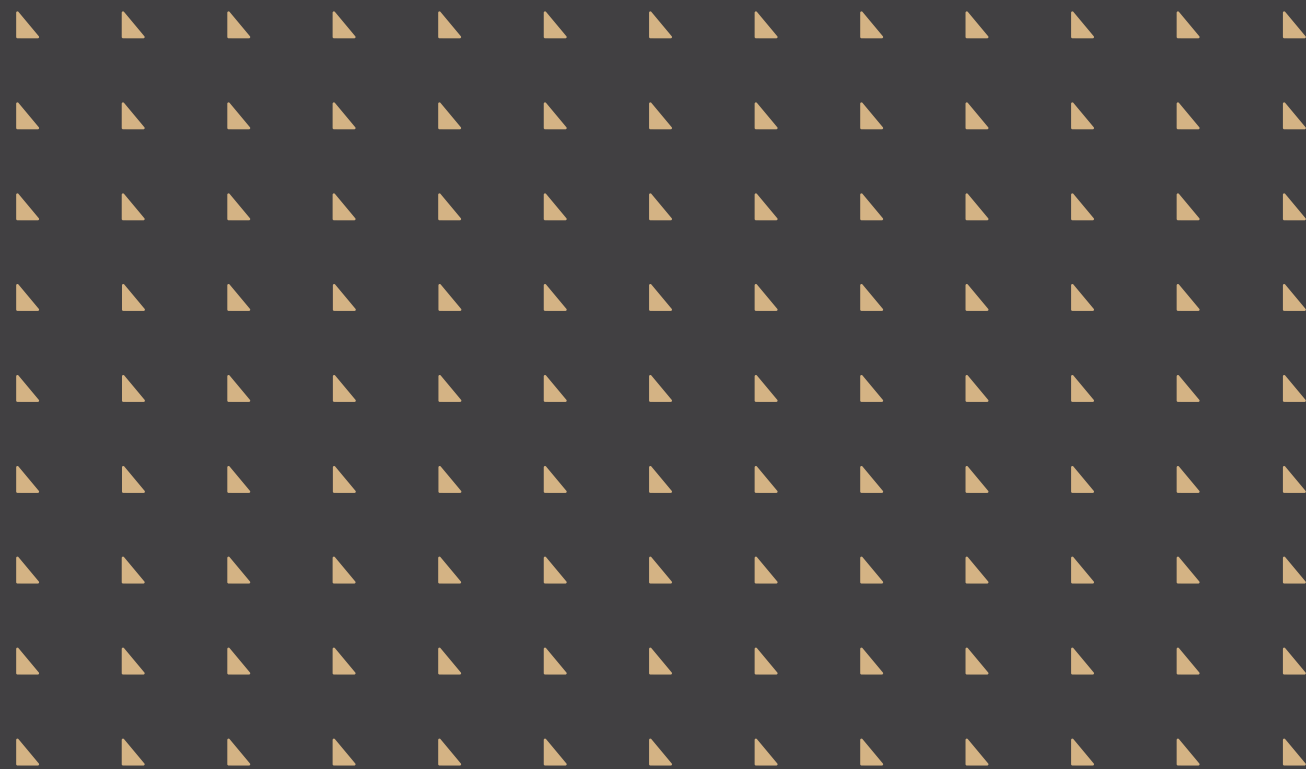

- Obtaining all the necessary government approvals
- Setting up a personalized site office with a Client's section and Consultant's section

5 Project Execution

- Strict adherence to the baseline program
- Highlighting key items to the client / consultant months in advance to make selections easy
- Conduct customer service for quality assurance
